DETAILED ACTION

Drawings

Figures 1-3 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g).

Foreign Search Reports

If available copies of any Japanese or European search reports related to the instant application would be appreciated with applicants' response to this Office action.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-4 are rejected under 35 U.S.C. 102(b) as being anticipations by JP 4-281047 since even though the main shaft is at 180 degrees (asserted by applicants in the second full paragraph on page 3 the instant application) at the start up following defective. weft removal weaving is still possible even if a wavy mark is produced.

Art Unit: 3741

Conclusion

The prior art made faulty weft removal devices of record and not relied upon are considered pertinent to applicant's disclosure.
